Специальное оборудование

The term special device refers to a wide range of devices useful to complete the lab of whom works with wood and other timber derivatives. In particular, a wide range of Trimatic, drilling jigs, developed and produced since 1998, suitable for making holes for hinge inserting on all kind of furniture by using only a normal pillar drill or electric drill. These special devices are one of the most innovative products in the woodworking field.

In the section of **special devices**, you can find tools and accessories for doors and windows manufacturers, drilling jigs, equipment for round/flat arches, clamps, special devices for angular hinges inserting, drilling for cremone bolts, quick clamping devices, automatic and manual tool washers, aggregates with grease lubrication, oil bath lubricated aggregates.
